## EQUIPMENT

### **AeroCatch Bonnet Pins**

There are two types available; Plus Flush and Flush. The Plus Flush has a 2.5mm thick flange that mounts on top of the panel, the Flush mounts from underneath leaving the panel completely flat on the surface. Made from glass filled nylon and stainless steel, the standard finish is black, but they can be easily painted to match bodywork. Strike pin can be used through the base or side, making them suitable for bonnets or boots. SVA compliant. 126mmx69mm.
